LUCAS' TRIP AROUND OAHU

SUPERVISOR MAKES AN INSPECTION WITH SUPERINTENDENT OF PUBLIC WORKS HOLLOWAY IN AN AUTOMOBILE.

Superintendent of Public Works Holloway and Supervisor Lucas returned Tuesday from their trip around the Island inspecting the roads.

"We found everything in pretty good shape," said Supervisor Lucas this morning. "We will have to spend some money on the new road to Wahiawa colony. The new road is a fine one, and has a splendid grade. But the turns are so short in it that a four horse team, or a long coupled vehicle cannot make them with a load. We were in an automobile and we could not make some of the corners without coming to a stop and backing. The appropriation for the road was not large enough to build it wider. We will have to fence it, for it is dangerous without a fence. We will also have to blast out some of the turns so as to make the road usable for all classes of vehicles. I think that for a thousand or twelve hundred dollars we can put the road in first class shape.

"There is a good deal of work to be done on the roads and especially at the bridges in Wahiawa. The roads around the island are, generally speaking, in good condition. The new road through Hauulu district is a fine piece of road."

PAYING FOR PARKER RANCH CASE

THE HAMAKUA DITCH COMPANY STOOD GOOD FIRST AND THEN SAM PARKER.

A search for letters showing the part taken in the Parker ranch case by the Hamakua Ditch Company and Hind, is what most of the cross-examination of J. S. Low by Kinney was today. The witness admitted that the company had agreed to stand good for the costs of the proceeding he brought as next friend of the minor. He said he didn't know of any withdrawal of such offer. He had heard that Sam Parker had agreed to stand good and had paid a fee of \$1,000 to Magoon. He said he had not asked Parker to pay the fee or other costs.

Kinney tried hard to get copies of letters about the Parker case which had passed between Low and Hind & Rolph, but none of them seemed to be found. Low said he always destroyed his private letters at intervals, as his drawer got full, and that all these must have been so destroyed.

ONE MAN CONVICTED.

The jury in the case of Yano and two other Japs, charged with assault with a weapon, brought in a verdict this afternoon in Judge Robinson's court finding Yano guilty and disagreeing as to the other two defendants. The weapon in the case was a railroad tie.

DOUTHITT ILL.

County Attorney E. A. Douthitt, who has been feeling ill for two or three days past, had a sudden severe spell yesterday and was unable to continue work at his office. He went out to his Kaimuki home and is now under the doctor's care. The County Attorney has had a deal of hard work in the starting of the County government and has probably overdone it so that a few days complete rest will build him up again. Unfortunately Mrs. Douthitt is still far from well also, she having recently undergone an operation for appendicitis.

MORE HONEY FOR ENGLAND.

As was told in the Star several weeks ago honey is being shipped in considerable quantities from these islands to England. A shipment of 250 cases arrived this morning in the steamer Mikabala from Kaula. The American-Hawaiian S. S. Company will ship a consignment of 820 cases for London via San Francisco this month.

WOMAN TESTIFIED IN GAMBLING CASE

DENIED THAT SHE HAD BEEN AT RIVER'S HOUSE WHEN GAMBLING WAS IN PROGRESS.

The trial of Alec Nicholas and Laelae on a charge of conducting a gambling game in River's house in Kakaako October 21 and a month prior thereto, was resumed before Judge Whitney this morning. Owing to the absence of Judge J. W. Cathcart trying other cases in the upper court, continuances had been taken during the week.

George Kealaula who had been on the witness stand for the prosecution Saturday when the adjournment was taken, was finally excused after being subjected to cross-examination by the attorney for the defense. The prosecution placed one Reposa on the stand to prove that gambling had been conducted by the defendants at River's place three weeks ago. He was one of the witnesses found by the police. Reposa stated that he had seen gambling but he had not noticed anybody taking any money out for the "kitty". The prosecution rested its case.

For the defense one Ekakela a woman, was the first to testify. Kealaula had testified that he had gone to River's house on the night of October 21 in company with this woman and had seen the gambling. The woman testifying for defendants, denied that such had been the case. They had gone to River's place but they had not gone inside, for a row was in progress. An adjournment was taken at the noon hour until the afternoon.

AMERICA MARU IS SIGHTED.

The S. S. America Maru with six days later mail, was sighted at 2 p. m. today off Koko Head, from San Francisco.

BOLTON'S DISTRACTED GLOBE

MEMORY LOST HER SEAT ON SATURDAY AFTERNOON AFTER A JAG LASTING OVERNIGHT AND HE DECLARES THAT ALL WAS BLANK TO HIM DURING HIS HOURS OF POSSESSION OF BAD COIN.

William R. Bolton took the witness stand in his own behalf this morning in Judge Dole's court, in defense of the charge of possession of counterfeit money with intent to defraud. He did not deny having had possession of the bad money, but said that he had been too drunk to know anything about it, which would naturally mean that his possession of the coin could not have been with intent to defraud. He positively contradicted the witness Jackson, and put a different construction upon his statements to Breckons from that of Breckons, Hendry and Maling. In answer to questions by Attorney Robertson, Bolton went over his doings of two days prior to his alleged offense. He told of a drinking bout at the camp on a Friday, followed by a trip to town, in which he said he got so drunk that he realized he could not work the next day. On the next day he began drinking early and in the afternoon he boarded a car for Waikiki. That was the last he remembered until the following Sunday morning when he woke up at home. He had no recollection of being at the camp, no recollection of receiving the counterfeit money from Private Cooper and did not remember giving the coin to Private K. Jackson. His memory was absolutely blank as to all that took place on the Saturday afternoon or evening. Dunne left Bolton practically without cross-examination. He asked him simply when memory left him and when it returned, and if he had regarded Jackson as a truthful person, to which question Bolton replied in the affirmative. The case was then closed, and argument began, Dunne opening for the government. He had not finished when court took the noon recess.

New Goods, New Patterns up-to-date.

JAS. F. MORGAN,
AUCTIONEER.

In a prayer book of the time of King Edward VI. of England appears the following prayer for landlords: "The earth is Thine, O Lord, and all that is contained therein, notwithstanding Thou hast given possession of it to the children of men, to pass over the time of their short pilgrimage in this vale of misery. We heartily pray Thee to send Thy Holy Spirit into the hearts of those that possess the grounds, pastures and dwelling places of the earth, that they, remembering themselves to be Thy tenants, may not rack nor stretch out the rents of their houses and lands nor yet take unreasonable fines and incomes after the manner of covetous worldlings; but so let them out to others that the inhabitants thereof may both be able to pay the rents and also honestly to live and nourish their families and relieve the poor. Give them grace also to consider that they are but strangers and pilgrims in this world."

Aluminum Cooking Utensils

Aluminum is fast displacing other wares for cooking utensils; it possesses many advantages not to be found in any other metal, viz.: Lightness, Cleanliness and Freedom from rust.

The durability of aluminum ware is well worth a house-keeper's attention. If properly cared for, can be handed down to another generation as clean and bright as when first purchased.

SOME REASONS WHY ALUMINUM COOKING UTENSILS ARE THE BEST:

1. They are light in weight, bright as silver, and absolutely pure and wholesome.
2. There is no enamel or plating to flake or wear off. The finish is the natural finish of the metal.
3. They will not burn or scorch food as readily as other metals.

This ware exhibited in our Household Department.

W. W. DIMOND & CO., Ltd
